

# Killington New Bridge

**Route type:** For all. A short linear walk at Killington New Bridge Local Nature Reserve - OS Explorer Map OL19

**Distance:** 0.6km (each way)

**Start point:** SD622907

**Turning point:** SD624913

**Facilities:** The nearest public toilets, including RADAR facility toilets, are on Main Street, Sedbergh. There is limited parking on the roadside verge at the site entrance.

**Getting there: Car:** From Kendal take the A684 towards Sedbergh. Before you reach Sedbergh, turn right onto the B6256 towards Kirkby Lonsdale. The parking for Killington New Bridge is just over the River Lune.

## The Route

Killington New Bridge Local Nature Reserve is owned and managed by the Yorkshire Dales National Park Authority. It consists of a steep woodland bank running down to the River Lune which flattens out at the top to provide a narrow strip of grassland, scrub and diverse hedge which is partially laid. Salmon occur in the river and there is a strong likelihood that mammals such as otter and badger use the wood.

Access to this 575m level footpath is through an accessible kissing gate. The surface is constructed of compacted aggregate with a general width of 120cm.
