6 January 2009

Dear Sirs

Yorkshire Dales National Park Offices, Bainbridge

I refer to your letter dated 23 December 2008.

You refer to works on the 'private road'. What is unclear, from your correspondence and the drawing, is if your client intends the road to remain private? The matter needs to be considered particularly as the 'private road' now serves dwellings in addition to your client's offices. It may be prudent to check both the planning permission for the dwellings and the offices in addition to any land transfers. The future status of the road will have a bearing on the approval of the drawings.

I will contact my colleagues at Richmond Area office to see if they are willing to undertake the lining works on Cam High Road. My recollection of the approved scheme on Cam High Road included a 'gateway feature'. Please can you check this? If more than lining is required the works will need to be carried out as part of a developer funded Section 278 Agreement.

I trust this clarifies the situation & await your response.

Yours faithfully

Pam Johnson
