

LIME-RICH NATURAL LAKES HABITAT ACTION PLAN

AIM

- To ensure that the current high biodiversity value of Malham Tarn is maintained.

OBJECTIVES

To achieve this aim we need to:

- ensure that Malham Tarn and its feeder streams remain free of pollution, and;
- ensure that adjacent land-use does not adversely affect the biodiversity value of Malham Tarn.

ACTIONS & TARGETS

To achieve these objectives the following actions should be carried out and the targets achieved within the time-scale given:

Actions	Target date	3 year cost £
Ensure that Malham Tarn continues to be free of nutrient and toxic pollution.	ongoing	0
Encourage sustainable land management practices within the catchment area of Malham Tarn through advice, education and, where necessary, management grants.	2010	20,000
