

Committee: FINANCE AND RESOURCES

Date: 10 September 2019

Report: SICKNESS ABSENCE

Purpose of the Report

1. To advise Members of the current level of sickness absence within the National Park Authority staffing establishment.

Recommendation

2. That the report be noted.

Strategic Planning Framework

3. The information contained in this report is consistent with the Authority's statutory purposes and approved strategic planning framework, and in particular Corporate Plan Objective 24, "Plan and manage all aspects of the Authority's business so as to make the most effective use of our resources".

Scope of this Report

4. Analysis has been undertaken of sickness absence data covering all staff employed by the Authority during the first quarter of 2019/20 (so from 1 April 2019 to 30 June 2019). The data has been categorised by individual Directorates and is attached as an **Appendix** to this report. Information is provided both in terms of the percentage of time lost and then what this means in actual days lost, to illustrate the proportionate and absolute size of sickness absence.

Method of Calculation

5. As with previous reports, the Appendix presents data for all staff based on a five day working week, taking into account vacant posts, bank holidays, and an average annual leave and flexi leave entitlement, to give 'actual' working days available for both full and part-time staff. The following data is provided:

- (i) Number of staff in post as at 30 June 2019 (Full-Time Equivalent)
- (ii) The total number of days lost due to sickness within the reporting period
- (iii) The total number of working days available within the reporting period
- (iv) Each Directorate's lost time rate, being the percentage of lost days compared with the number of days available, is calculated as follows:-

$$\frac{\text{Total Number of Days Lost}}{\text{Total Number of Days Available}} \times 100$$

6. The Authority's lost time rate for the quarter ending 30 June 2019 was **2.2%**. The rate for the previous quarter to 31 March 2019 was **2.1%**. Also provided within the Appendix are details of the quarterly lost time rates over the last five years.

Performance Indicator results

7. The Authority uses a Performance Indicator to report the proportion of working days lost due to sickness absence. Rather than reporting the annual lost time rate, sickness absence for Performance Indicator purposes is calculated and expressed as the number of day's absence per Full Time Equivalent (FTE) member of staff, as follows:

$$\frac{\text{Aggregate of lost working days}}{\text{Average number of FTE staff}} = \text{X days per FTE}$$

Calculated by reference to the start and end of the financial year

8. The situation as at the end of the first quarter (ending 30 June 2019) using the Performance Indicator methodology (as opposed to the 'lost time rate', percentage-based approach) yields a figure of **1.1 days per FTE** for that quarter.

Number of working days lost due to sickness per FTE – comparative data

9. The following table shows the Authority's performance relating to sickness (as measured by the Performance Indicator calculation) over the past five years. Figures for the Welsh and Scottish National Parks are included for the first time, although not all NPAs had responded to requests for data by the date of this report.

SICKNESS ABSENCE LEVELS – 1 MARCH to 30 JUNE 2019

DIRECTORATE	FULL TIME EQUIVALENT IN POST as at 30.6.19	TOTAL NO. OF DAYS LOST	TOTAL DAYS AVAILABLE	LOST TIME %
Corporate Services	22.26	17.23	1157.52	1.5
Conservation & Community	39.26	57.81	2041.52	2.8
Park Services	55.17	56.74	2868.84	2.0
TOTAL	116.69	131.78	6067.88	2.2

NOTES

1. Of the 17.23 days lost in Corporate Services, 10.98 days relate to one member of staff, who has since returned to work.
2. Of the 57.81 days lost in Conservation & Community, 30.4 days relate to one member of staff who is on long-term sick.
3. Of the 56.74 days lost in Park Services, 28.34 days relate to two members of staff who have since returned to work.
4. Taking out the long-term sickness (defined here as any instance lasting for more than ten working days), the Authority's lost time rate would be **1.0%** and the days absence per FTE would be **0.5** days.
